9.1 Burial Report

Burials since last report 0

Headstones additional inscriptions 2

Scattering lawn request 1

9.2 New area of cemetery

Recommendations:

1. The council proceed with the purchase of the land
2. Progress with a T2 report and a pre app to the Environment Agency
3. A pre app planning application is submitted for change of land use
4. If the sale is completed in time all cremations will go in the marked area of the new cemetery and burials will continue in the current cemetery.
5. Consideration may need to be given to building up the soil depth in the new burial section as it is currently only deep enough for single burials.
